- Status changed from Resolved to Closed

- source : <https://www.amos2.fr/ide/Amos2/Ide/Program/460>
- run : <https://www.amos2.fr/run/tickleman/28/>
- compile : ok
- still error on execution : "Illegal text window parameter at line: 90, column: 1."
- code at line 90 : Locate 5,13 : Print "PEN"

Strange, it's exactly the same code than the lines before...

Compilation problem solved : I close.

For the execution error, I open a new issue.
