### History

#### #1 - 09/20/2020 08:11 AM - Brian Flanagan

- Assignee set to AOZ Studio Team
- Priority changed from Normal to High
- Estimated time set to 8:00 h
- Affected version changed from 0.9.8.1 to Beta RC2

Random files still don't work. Here's a full example:

```
Open Random 1, "test.dat"
Field 1,20 As FirstName$, 20 As LastName$, 10 As PhoneNumber$
FirstName$="Barney" : LastName$="Rubble" : PhoneNumber$="7891239876"
Put 1,1
FirstName$="Fred" : LastName$="Flintstone" : PhoneNumber$="7891234567"
Put 1,2
Close 1
```

The result is still syntax errors.

#### #2 - 11/17/2020 10:32 PM - Brian Flanagan

- Affected version changed from Beta RC2 to Beta 1

Get and Put no longer produce Syntax errors, HOWEVER, Close n fails. (Causes Internal Error.)  
test.dat is NOT written.

#### #3 - 10/21/2021 09:49 AM - Brian Flanagan

- Status changed from New to Resolved
- Target version set to 1.0.0 (B10) u16

Not sure when this was fixed, but it's all working now. :-)

Re-tested in 1.0.0 (B10) u16.
