

AOZ Studio Beta - Bug #360

Inkey\$ returning multi-character results for modifier keys. (Should return nothing.)

04/28/2020 04:25 AM - Brian Flanagan

Status:	Closed	Start date:	04/28/2020
Priority:	Normal	Due date:	
Assignee:	Brian Flanagan	% Done:	0%
Category:		Estimated time:	0:00 hour
Target version:	0.9.9.4-r3		
Affected version:	0.9.8.1		
Description			
Inkey\$ should always return a single character code. It should also save a copy of the current value of the modifier keys in ScanShift			
In the following example:			
<pre>Curs Off prevKY\$="" Do KY\$=Inkey\$: Wait Vbl If KY\$<>prevKY\$ And KY\$ <> "" Then Locate 0,0 : Print KY\$;" prevKY\$=KY\$ Loop</pre>			
Typing a capital A will result in:			
ShiftA			
...instead of:			
A			

History

#1 - 08/19/2020 10:49 AM - Brian Flanagan

- Assignee set to Brian Flanagan
- Target version set to 0.9.9.4-r3

There were also many other keys besides the modifiers.

Finally fixed!
