

AOZ Studio Beta - Bug #507

Beep.wav file error when running programs

09/19/2020 11:18 AM - Paul Kitching

Status:	Closed	Start date:	09/19/2020
Priority:	Normal	Due date:	
Assignee:	AOZ Studio Team	% Done:	0%
Category:		Estimated time:	1:00 hour
Target version:			
Affected version:	Beta RC2		
Description			
No program will compile until I manually copy beep.wav into the resources/appicon directory.			
E.g. to E:\Data\My Documents\My AOZ Applications\Mirror\resources\appicon			
Uncaught Error: EPERM: operation not permitted, copyfile 'E:\AOZ Studio (64 bits)\aoz\templates\empty_application_pc\resources\appicon\beep.wav' -> 'E:/Data/My Documents/My AOZ Applications/Mirror/resources/appicon/beep.wav'			
fs.js:122			
Error: EPERM: operation not permitted, copyfile 'E:\AOZ Studio (64 bits)\aoz\templates\empty_application_pc\resources\appicon\beep.wav' -> 'E:/Data/My Documents/My AOZ Applications/Mirror/resources/appicon/beep.wav'

I've seen that error before, but I'm not experiencing that in the current version. (Beta RC2)

Did any errors occur when you installed the RC2 version?

Did you try a clean install? (Rename the old program folder, so it's like a new install.)

#2 - 09/19/2020 05:46 PM - Paul Kitching

No errors on install that I remember.

I uninstalled the previous one, then manually deleted the left over directory, then did a new install.

The only thing I did different to the default, was to change the install directory to point to my E drive, as my C drive is for the OS and isn't very big. I have all my software installed on E.

I also get errors in the window at the bottom. I can't copy then, but they say:

Compiler error: cannot copy file: E:/data/.../appicon/beep.wav

Compiler error: cannot copy file: E:/AOZ Studio (64 bits)/.../resources/star_night.jpeg

#3 - 04/13/2021 07:53 PM - Brian Flanagan

- Status changed from Feedback to Closed

Re-tested in 1.0.0 (B7). Works. I see no more file errors.

(The "beep" error was corrected a long time ago.)
