

AOZ Studio Beta - Bug #508

Issue with Atom text cursor

09/19/2020 07:19 PM - Nick Morison

Status:	Feedback	Start date:	09/19/2020

Target version:			
Affected version:	Beta RC2		
Description			
When I get a runtime error in the AOZ viewer (eg image not defined), when returning to the ATOM editor the text cursor has vanished! It's ok when testing on Chrome though.

Tested in 1.0.0 (B7).

I don't see the cursor disappearing after an error in the current version.

If you can provide example code that still does this, please update this ticket with the example, otherwise it will be closed.
