<b>Description</b>			
<pre>a\$="" b\$="" while a\$=""   a\$=inkey\$ wend print ". ";a\$;"." print ". ";b\$;"."</pre>			
In AMOS this doesn't print a space between the dots if you just press return. It does in AOZ for a\$.

- Description updated

- source : <https://www.amos2.fr/ide/Amos2/Ide/Program/439>
- run : <https://www.amos2.fr/run/tickleman/53/>
- input : just press return

result :

```
..
..
```

should be :

```
..
..
```

better should be :

I think that while a\$="" should loop, if you press only return : return alone stores an empty string, not ? (I am not an Amos specialist, so please verify ;)).
