- Target version set to 0.9.4

Fixed. You have a 'fast' mode, the rainbow is in a screen, and a m'slow' mode, rainbows are just like on the Amiga., Slows down the machine a bit, I will work to accelerate it.

I can't close this bug ticket : I never have seen any rainbow on my computer.

<https://www.amos2.fr/run/tickleman/54/>

Please tell me if I have some hashtags to add to use the right manifest (0.9.6) ?

- File capture.png added
- Description updated

Closed : used the manifest "amiga", it works.

Notice : the rainbow is shown into the screen area, not on left/right borders. Is it the right behaviour ?

I re-tested this in Beta RC3.
It no longer works.
