

AOZ Studio Beta - Bug #59

Rainbow commands cause Chrome, VSCode, and Windows to become unstable and unresponsive.

Target version:	0.9.4		
Affected version:	0.9.5		

Description

Example: Help_52, from AMOSPro_Examples disk.

The rainbow commands compile now, however, running these commands appears to cause Chrome, VSCode, and Windows to become unstable.

At first, it looks like this example may work, but then the screen goes black, and Chrome and VSCode become unresponsive. Sometimes, I can get the task manager to come up, so I can kill both VSCode and Chrome, however, when I let it run too long, it actually crashed something in Windows, so even after I killed VSCode and Chrome, I ended up having to do a hard shut-down because Windows had become unstable as well.

History

#1 - 01/22/2020 11:05 PM - Baptiste Pillot

- Assignee set to Francois Lionet

#2 - 02/03/2020 06:24 PM - Francois Lionet

- Status changed from New to Resolved

- Target version set to 0.9.4

Corrected!

#3 - 02/28/2020 03:51 AM - Brian Flanagan

- Status changed from Resolved to Closed

- Affected version changed from 0.9.3 to 0.9.5

Tested in version 0.9.5.1: Rainbow problem corrected, however, there are still problems with Help_52.
