

## AOZ Studio Beta - Bug #662

### Javascript alert boxes don't work properly when in the AOA viewer.

02/12/2021 01:57 PM - Brian Flanagan

<b>Status:</b>	Resolved	<b>Start date:</b>	02/12/2021
<b>Priority:</b>	High	<b>Due date:</b>	
<b>Assignee:</b>	Baptiste Bideaux	<b>% Done:</b>	0%
<b>Category:</b>		<b>Estimated time:</b>	1:00 hour
<b>Target version:</b>			
<b>Affected version:</b>	1.0.0 (B10) u16		

**Description**

The alert() should be modal, but processing continues *when in the AOA Viewer*.  
Note that when using "Run in Browser", they work properly.

Example:

```
C=0
Do
    Inc C
    { alert(this.vars.C) }
    ' The alert above SHOULD wait for the OK button!
    ' Every time C is incremented, you SHOULD have to click OK before processing continues.
    ' Instead C is just continually incremented with no wait for the click.
    Wait Vbl
Loop
```

#### History

##### #1 - 02/16/2021 12:32 PM - Brian Flanagan

re-tested on 2/16/2021: Still fails. (processing continues)

##### #2 - 02/16/2021 03:59 PM - Brian Flanagan

- Priority changed from Normal to High

##### #3 - 03/09/2021 12:23 PM - Brian Flanagan

- Assignee set to Baptiste Bideaux

- Affected version changed from 1.0.0 (B3) to 1.0.0 (B4)

Re-tested in 1.0.0 (B4) on 3/9/2021.

Still fails. Related to Bug [#665](#) and [#666](#).

Look at updates on bug [#666](#) for more current details.

##### #4 - 03/20/2021 02:21 PM - Brian Flanagan

- Affected version changed from 1.0.0 (B4) to 1.0.0 (B5)

Re-tested in 1.0.0 (B5). Still fails.

##### #5 - 09/17/2021 11:09 AM - Brian Flanagan

- Status changed from New to Resolved

- Affected version changed from 1.0.0 (B5) to 1.0.0 (B10) u16

Re-tested in 1.0.0 (B10) u16.

The alerts appear as they should now, **however**, the example code above will cause AOA to minimize and freeze.

I was only able to get out by killing aozstudio (Force Quit). (macOS)
