

AOZ Studio Beta - Bug #738

Adding a directory to current path renders a crash

04/24/2021 07:39 PM - Jake Joergensen

Description

Cannot navigate relatively

I am in C:/Dynamo and user wants to navigate to the folder "Wheel" provided by Dir First\$ / Next\$.

F\$="Wheel"

If Dir\$=F\$ is written, AOZ crashes. AOZ can't navigate relatively in the OS.

If I formulate

Dir\$=Dir\$+F\$

It works. Not sure if it's a bug or whatever.

I'm pretty sure, though, that AOZ shouldn't crash :/ :)
