Target version:	1.0.0 (B16) u25		
Affected version:	1.0.0 (B7)		

Description

For a very simple code like this :

```
Print "Hello world ! What is your name ?"
Input name$
Print "Hello,", name$
```

Publish is refused on the "check" step :
"Sorry, we were unable to build your application. Please check your application code and try again".

But : this code compiles and runs !
