

AOZ Studio Beta - Bug #793

AMOS import is NOT working in macOS.

Target version:			
Affected version:	1.0.0 (B8) u15		
Description			
<p>Although the newest version: 1.0.0 (B8) u15 says that AMOS import is available in macOS, it still isn't working. It will bring up a dialog box saying it's importing, and then will open a blank editor window with main.aoz in it.</p> <p>That's <i>all</i> it does.</p>
