

AOZ Studio Beta - Bug #824

Debugger rulers are the wrong scale in the Amiga manifest.

09/17/2021 11:48 PM - Brian Flanagan

Status:	Resolved	Start date:	09/17/2021
Priority:	Normal	Due date:	
Assignee:	Francois Lionet	% Done:	0%
Category:		Estimated time:	0:00 hour
Target version:	none		
Affected version:			
Description			
I created a 320 x 256 screen in the Amiga manifest, but when I opened the debugger, the rulers were set for a much larger display - about 1800 x 1100 or so.			
(The print was too small to read the size accurately.)
