Target version:	none			
Affected version:	1.0.0 (B11) u17			

Description

aoz_studio_1.0-0_beta 11_setup.se.win64, SetUp program fails to setup shortcut or reveal where the program is located.

History

#1 - 12/03/2021 07:39 AM - richard langley

earlier version crashed after 2 or 3 attempts to run a program, so I tried an update.
aoz_studio_1.0-0_beta 11_setup.se.win64, SetUp program fails to setup shortcut or reveal where the program is located. Not found in Start menu.

Follow-Up: Uninstall and re-install attempted several times.
What works... Uninstall, delete every folder and file associated with AOZ. Restart. Re-install. Find aoz program. Make Short cut.

This set-up still needs to make a short cut and include the program in the Start menu.
