

## AOZ Studio Beta - Bug #885

### Transpiler fails on an unclosed Procedure in this situation

#### Description

Example:

```
MyProcedure
```

```
Procedure MyProcedure
```

```
  Print "test"
```

```
Return
```

Instead of displaying a "Missing End Procedure" or "Procedure without End Procedure" error, the transpiler just freezes, presumably in an infinite loop. As a result, you have to kill AOZ and restart.
