Description

Now using ctrl+shift+f3 for re-indent it is not working in the current edu betaoz channel version.
Yes, something stopping it working to re-indent now or not connected somehow now.
See screenshot....Bottom right of screenshot is the new version, as you can see does nothing on using ctrl+shift+f3 now.
Note: I believe BaptistB has looked at this, Ive added here just for reference to remember it tho.

History

Problem Still present in current beta 16 u29.
Still ctrl+shift+f3 now does nothing.
Screenshot coming, attachment system still not working again.

- Assignee changed from AOZ Studio Team to Baptiste Bideaux

Your notes below on the subject..recently...(The same issue in u33).
..
The shortcut for indent is "ctrl-shift-f3" and this has never changed it seems (not recently anyway).
.
"Well, then there is something strange, it seems that this keyboard shortcut works as a build without execution. It does not indicate anything..."
