

## AOZ Studio Beta - Bug #42

### Input command - missing ? when not using a string

01/21/2020 04:44 PM - Paul Kitching

<b>Status:</b> Closed	<b>Start date:</b> 01/21/2020
<b>Priority:</b> Normal	<b>Due date:</b>
<b>Assignee:</b> Francois Lionet	<b>% Done:</b> 0%
<b>Category:</b>	<b>Estimated time:</b> 0:00 hour
<b>Target version:</b> 0.9.3.2	
<b>Affected version:</b> 0.9.2.6	
<b>Description</b> input a\$ input "Name";name\$  The first line should show a ? followed by a space, then the cursor, but the second shouldn't. AOZ doesn't show a "?" for either.

#### History

##### #1 - 01/21/2020 04:46 PM - Paul Kitching

The subject should say when NOT using a string.

I wish I could edit the post, as I've done two so far and made a mistake on both!

##### #2 - 01/21/2020 05:21 PM - Francois Lionet

- Status changed from New to Resolved

- Target version set to 0.9.3

Fixed!

##### #3 - 01/22/2020 09:31 PM - Baptiste Pillot

- Subject changed from Input command - missing ? when using a string to Input command - missing ? when not using a string

##### #4 - 01/22/2020 09:35 PM - Baptiste Pillot

- Status changed from Resolved to Feedback

- source : <https://www.amos2.fr/ide/Amos2/Ide/Program/415/edit>
- run : <https://www.amos2.fr/run/tickleman/42/>
- inputs : I type "foo" for the first input, then "bar" for the second one

0.9.2.6 :

```
foo
Namebar
```

0.9.3.1 :

```
?foo
Namebar
```

The result is a little bit different than the one expected by Paul : "a ? +followed by a space+ then the cursor". There is no space between the ? and the cursor.

Francois : do you confirm the actual result for the 0.9.3.1 (without space) is the one that match the actual specifications ?

##### #5 - 02/01/2020 06:21 AM - Baptiste Pillot

- Status changed from Feedback to Closed

- Target version changed from 0.9.3 to 0.9.3.2

- Amos : ? foo : it's right, there was a space here
- 0.9.3.1 : ?foo : not conform to how Amos was working
- 0.9.3.2 : ? foo : ok

Confirmed ok.
