

AOZ Studio Beta - Bug #786

Functions placed after Print will not work on F5 help.

06/20/2021 09:56 PM - Brian Flanagan

Status:	New	Start date:	06/20/2021
Priority:	Normal	Due date:	
Assignee:		% Done:	0%
Category:		Estimated time:	0:00 hour
Target version:	none		
Affected version:			

Description

For example, for any of the following:

```
Print Abs(-30.5)
Print Sin(60)
Print Cos(90)
```

...when placing the cursor just after the function name, the result is a help box for:

```
Print ITEMS
```

...VS...

```
= Abs(number)
= Sin(number)
= Cos(number)
```

Even by themselves, Sin and Cos don't work properly.
The help comes up, but there is no heading.
An error is also displayed:

```
File system not available at line: 811, column: 5 in file main.aoz
```

NOTE: There IS NO main.aoz!!! (The code had a name like BugXYZ.aoz)
